Sponsorship of Fifth Wastewater Treatment Modelling Seminar (WWTmod2016), 2nd – 6th April, 2016
in Annecy, France

Dear Sir or Madam:

In an effort to expand the geographic reach of the seminar, the **fifth edition of the seminar will be held in Annecy (France) in April 2016.**

The seminar's goal is to build consensus among wastewater treatment experts on the use of models in design, operations, and research, as well as discuss the development needs regarding these models. Previous WWTmod events were attended by the **leaders in our profession, both from academia and from practice.** The organizers of the 2016 event are convinced that WWTmod2016 will be even more beneficial to the attendees and set the course of how models will be used in the future, across the globe.

We would like to offer you and your organization the opportunity to participate in our four level sponsorship program. **An important benefit of sponsorship is that one registration is included in the package, i.e. participation will not have to go through WWTmod2016's invitation process.** As such, participation to the seminar is guaranteed. We further offer the possibility to spread out the sponsorship contribution over two years.

The sponsorship program has four levels, described below. **Especially for utilities we have created a fourth level (utility sponsorship).** The utility sponsorship includes one invitation to participate (incl. registration fees currently set at 760 euro for non-IWA members), a copy of the proceedings and a list of participants.

1. Platinum Sponsor:

- One invitation to participate incl. registration fees (value of 760 euro for non-IWA members),
- Sponsorship of one of the social events, including a speaking opportunity,
- A copy of the proceedings,
- A list of participants (+ e-version),
- One piece of information on your organization added to the conference bag,
